PROJECTS

Weather Dashboard App: Oct 2025

- Built clean weather dashboard with real-time weather data and 5-day forecast using OpenWeatherMap API
- Implemented city search and geolocation support for automatic location detection
- Tech Stack: JavaScript (ES6), HTML5, CSS3, OpenWeatherMap API
- **Repo:** Weather Dashboard App

Inventory & Sales Management System: Apr 2025 - Jun 2025

- Developed an inventory system with role-based access, interactive dashboards, and real-time search
- Integrated PDF invoice generation and secured with JWT authentication
- **Tech Stack:** ASP.NET MVC, C#, MSSQL, JavaScript, AJAX, HTML/CSS
- **Project Overview Link:** Inventory & Sales Management System

Techstore an E-Commerce Website: Apr 2025 - Jun 2025

- Built a full-featured e-commerce site with a responsive design and optimized checkout
- Configured product management, payment integration, and shipping settings
- **Tech Stack:** WordPress, WooCommerce, HTML, CSS
- **Site Link:** Techstorebd

TeamSync - Project Management Platform: Dec 2024 - Jan 2025

- Built a project management platform using PHP and MySQL.
- The platform supported different user roles like Admin, Project Manager, and Developer, each with their own dashboards.
- Managed the full project lifecycle with features like AJAX search and custom routing.
- Repo: TeamSync

EDUCATION

Bachelor of Science in Computer Science & Engineering Jan 2022 - Present

American International University-Bangladesh (AIUB)

- Major in Information Systems I CGPA: **3.38**
